

## FO Series - 15.0 mm Pixel Pitch

### 15.0 mm Pixel Pitch, Outdoor LED Curtain

- FO Series only weighs 22kg/m<sup>2</sup> while the traditional outdoor screen is normally 60kg/m<sup>2</sup>, the weight of which is decreased by 63%
- The installation just needs a location for the installation of frame instead of heavy steel structure, which can significantly reduce the load-bearing of buildings
- Self heat dissipation excludes the demand for air conditioning, saving power and expense
- The porous design can fulfill air convection and protect the screen against strong wind
- Single cabinet can be directly dismantled from the frontage of the screen, easy to maintain
- The permeability can reach 40-70% according to different distance so it won't influence the lighting inside the building
- High brightness and waterproof IP66
