

Vector Motion Sensor

Miniature Infrared Motion Sensor for factory integration into the Vector or Vector Integra product range. With a 360 degree detection area at 2.5Mts mounting height, the detector is capable of a 6Mtr detection zone. The detector is capable of monitoring ambient light between 10 and 2000 Lux, has adjustable sensitivity and adjustable time delay for up to 20 Minutes.

- 360 Degree 6 Mtr Radius Detection Zone (2.5Mts)
- Adjustable Lux Sensor
- Installation height from 1.8-2.5Mtr
- Adjustable sensitivity (0.6-1.5m/s)
- Adjustable Time Delay up to 20 Minutes
- Automatic Time Delay Reset

General

| | |
|---------------|---------------------------------------------|
| Dimensions | 23mm Diameter |
| | 12mm Height |
| Weight | 0.2kg |
| Installation | Factory Installed (Vector & Vector Integra) |
| Voltage | 85-265Vac 50/60Hz |
| Certification | SAA, TUV, CE, GS, CB, ERP |
| Warranty | 5 Years |
| IP Rating | IP20 |

Product Code: VMS
